Date

May-13-1911

Saturday P.M.

Incubation

Fresh

Identity

Birds seen

Locality

Lower side of Iron bridge road  
A short distance this side of Tenants

Nest

composed of green moss, red-  
dish hair, and rabbit's hair.

Built in a cavity made by  
chickadees; (7 in deep) 5 feet up  
in the top of a decayed red  
oak fence post of a wire  
fence; at lower side of a  
public road; high up on  
a hillside; near a woods.

The birds were near and made  
quite a fuss (Nest saved)

I found this nest last Sunday  
when it contained two eggs.  
(Arthur Smith was along.) S. Dickey
